

Fast, reliable communication

Accessible 24/7 and only a click away

Patient Portal

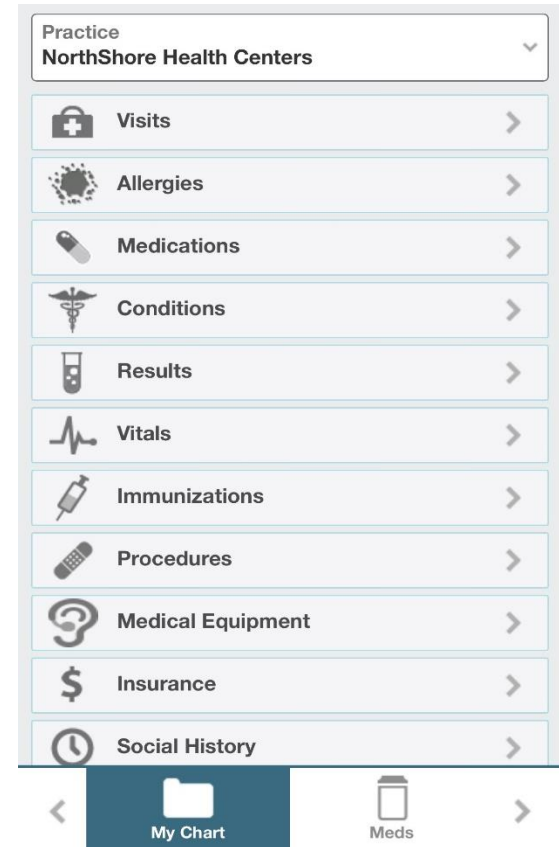

Healthcare and the Internet

- 87% of U.S. adults use the Internet
- 72% of Internet users have looked online for health information in the last year
- More than half of patients want to communicate with providers via a secure email
- 31% of cell phone owners, and 52% of smartphone owners, have used their phone to look up health or medical information.

Pew Research Internet Project 2014

NorthShore Health Centers

...is proud to offer you access to our Patient Portal, a secure and easy-to-use, Internet-based portal which simplifies communication with your physician.

Accessing Patient Portal

You can access the Patient Portal from the comforts of your home or office, from any computer or mobile device with an Internet connection.
